# INTRODUCTION

The **DSL Token (DSLT)** project aims to revolutionize digital asset interaction by creating a transparent, utility-driven token with real-world applications in e-commerce, payments, NFTs, and finance. DSLT ( Dollar Secure Ledger Token) is a UK based company, Our mission is to build a powerful, interconnected ecosystem that empowers users and businesses globally. From our roadmap focuses on innovation, sustainable growth, and global adoption — ensuring DSLT leads the shift toward real-world blockchain utility.

# Where DSLT's Journey Begins

In June 2025, the DSLT project officially begins with a strong focus on planning and ecosystem strategy development. This phase lays the foundation for the entire project — defining core objectives, tokenomics, and long-term sustainability goals. The team works on creating a clear roadmap and building the infrastructure needed to support a robust blockchain ecosystem.

# Entering the Crypto World

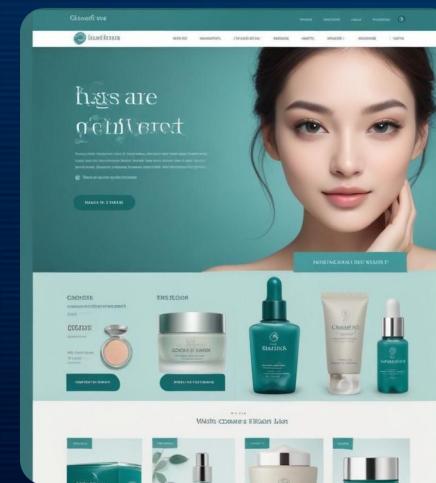

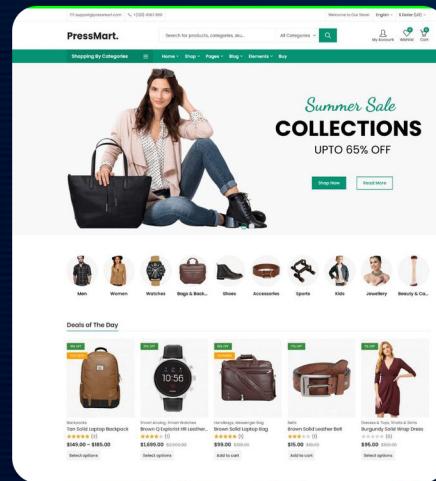

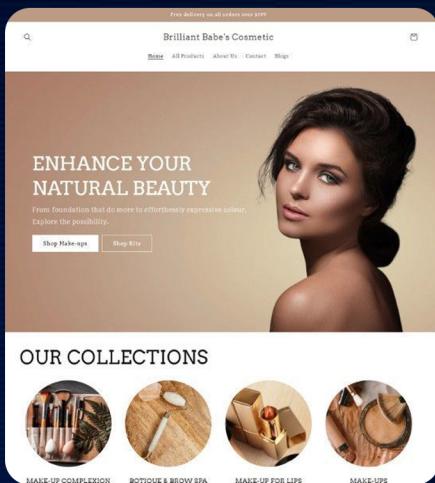

In October 2025, DSL Token (DSLT) officially enters the crypto market, marking a major milestone in its journey. This phase focuses on token deployment, exchange listings, and community engagement to build strong market presence. With transparency and innovation at its core, DSLT begins shaping its place in the decentralized economy.

# DSLT Meets E-commerce

In February 2026, the DSLT E-commerce Platform will be launched, allowing users to shop using DSL Tokens. This milestone bridges blockchain technology with real-world commerce, enabling seamless, secure, and instant crypto payments. It marks a key step toward making DSLT a practical currency for everyday transactions.

# Global DSLT Expansion

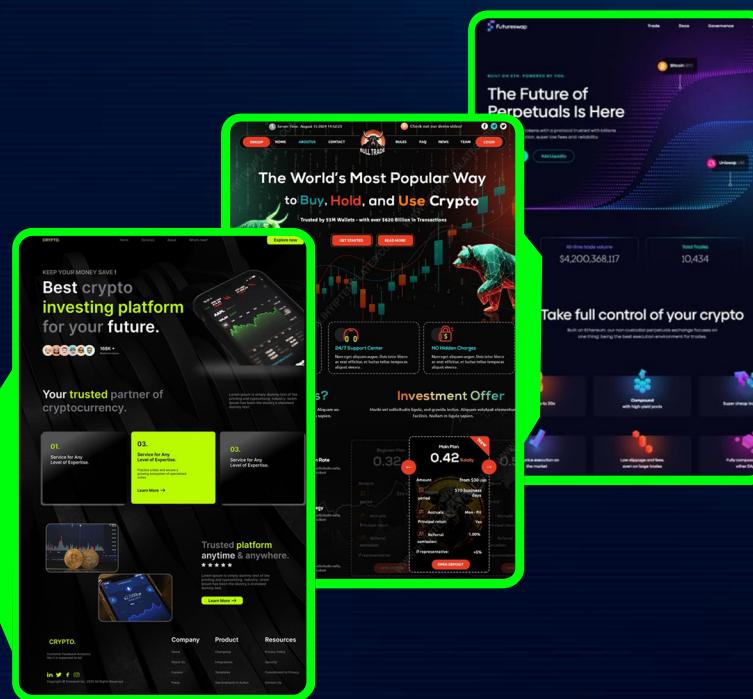

In April 2026, DSLT will launch a major marketing campaign alongside new exchange listings to boost global presence. This phase focuses on growing the community, increasing adoption, and enhancing the token's accessibility across international markets. It represents a key step in establishing DSLT as a prominent player in the crypto ecosystem.

# DSLT Trading Begins

**DSLT will officially begin public listing and trading in April. The token will be available on supported cryptocurrency exchanges, providing investors and holders with access to buy, sell, and track their holdings. Public trading ensures market transparency and liquidity, allowing participants to engage with DSLT seamlessly.**

# DSLT Debit Card Launch

In June 2026, DSLT will introduce its International Debit Card, enabling seamless crypto payments worldwide. This milestone allows users to spend their tokens easily across merchants and online platforms, bridging the gap between digital assets and everyday financial transactions. It's a major step toward mainstream adoption of DSLT.

# DSLT NFT Launch

In October 2026, DSLT will launch its NFT Token, entering the growing market of digital collectibles. This expansion allows users to create, trade, and own unique blockchain-based assets, enhancing the utility and engagement of the DSLT ecosystem. It represents a key step toward innovation and diversification within the project.

# DSLT Staking Rewards

In December 2026, DSLT will roll out its Staking Program, allowing token holders to earn rewards by participating in the network. This initiative incentivizes long-term holding, strengthens community engagement, and promotes the stability and growth of the DSLT ecosystem.

# DSLT Exchange Launch

In 2027, the DSLT Exchange will go live, offering a reliable and efficient platform for buying, selling, and trading DSLT tokens. This launch aims to increase accessibility, foster liquidity, and establish DSLT as a central hub in the crypto market.

# DSLT Benefits

DSLT offers significant advantages for early participants. Currently priced at just \$0.05, it provides an opportunity to invest at a low entry point. In approximately six months, when it enters the open market with high trading volume, it has the potential for substantial growth. Additionally, users can earn rewards through referrals, making it a profitable option for those who invite others to join.

- Current low price: \$0.05
- Potential growth in 6 months with high market volume
- Earn 15% direct referral profit
- By using the DSLT debit card, you can withdraw cash from any ATM.
- By using the DSL Token, you can make purchases on the DSLT e-commerce website.
- When staking DSLT, you can earn daily staking rewards.
- Anyone holding 0.1 million DSLT will receive a share of global income.
- When the DSLT NFT is launched on the marketplace, NFT holders will receive NFT rewards.

# DSLT Total Supply

The total supply of DSLT is 2,500 Million tokens. Out of this, 48% (1,200 Million) is allocated for the community, ensuring widespread participation. The remaining 52% is reserved for company development to support growth, partnerships, and platform enhancements.

- **Total Supply: 2,500 Million DSLT**
- **Community Allocation: 48% (1,200 Million)**  
[15% referal reward (18 crores) balance 1,020 Million community distribution]
- **Company Development: 52%**
  - - 10% company holding
  - -25% projects
  - -7% developing
  - -8% liquidity and listing
  - -2% others
  - **Limited Supply, Maximum Impact**

# DSLT Price Changes Through Multi-Mining System

- Total Supply: 1,020 Million
- 1,020 Million is divided into 15 Main Blocks
- 1 Main Block = 68 Million
- Each Main Block is divided into 25 Mini Blocks
- 1 Mini Block = 2.72 Million

After completing one Mini Block, the DSLT price will increase by 10%, and this will continue with each subsequent Mini Block.

When DSLT is launched on a public exchange, the multi-mining system will be stopped. After that, the price will be controlled by the public market.

# Buy & Join DSLT

To purchase DSLR, install playstore any decentralized crypto wallet. Then use BNB network and buy USDT.

**you can join the DSLT network using your referral ID and start participating in the platform**
